User Guide – Trading Keyboard (NinjaTrader)

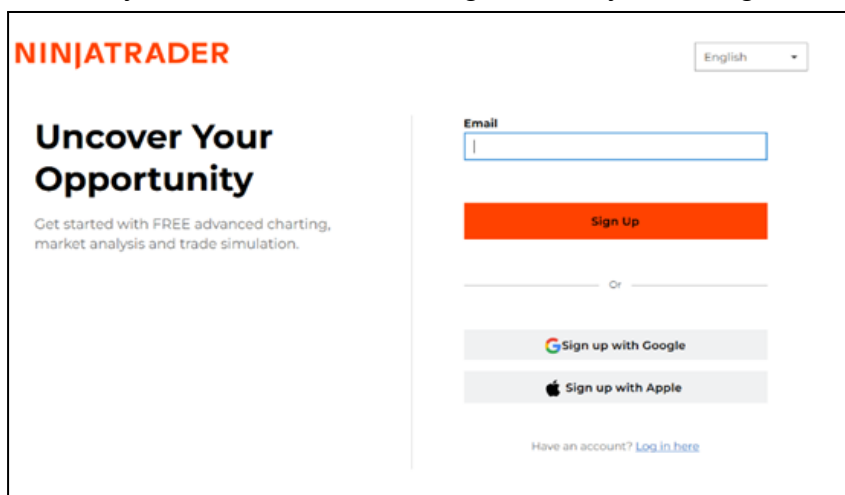

NINJATRADER SETUP:

Step 1: NinjaTrader Account Setup

1. Open the Registration Link: <https://ninjatradernationalvendor.sjv.io/E0zbKe>
2. Click **GET STARTED**

3. Enter your email address or sign in with your Google account

A screenshot of the NinjaTrader registration page. The top left has the 'NINJATRADER' logo. The main heading is 'Uncover Your Opportunity', followed by the text 'Get started with FREE advanced charting, market analysis and trade simulation.' On the right side, there is a registration form. It starts with an 'Email' label and an input field. Below the input field is an orange 'Sign Up' button. Underneath the button is a horizontal line with the word 'Or' in the center. Below this line are two buttons: 'Sign up with Google' (with the Google logo) and 'Sign up with Apple' (with the Apple logo). At the bottom of the form, there is a link that says 'Have an account? Log in here'.

4. After signing up with Google, this window will appear
5. Click the [blue link](#) below to open a **demo account**

NINJATRADER

Get started

Start with Live Trading

Continue

7. You'll be redirected to your account. From here, **download the desktop app**
8. **Install** NinjaTrader on your computer and launch the app.

9. **Sign in** with your account.

A screenshot of the NinjaTrader login screen. The title 'NINJATRADER' is at the top in large orange letters. Below it are two input fields: 'Username' and 'Password'. The 'Password' field has a toggle icon to its right. A large orange 'Log In' button is centered below the fields. Underneath the button are two links: 'Forgot Username?' and 'Forgot Password?'. A horizontal line with the word 'Or' in the center separates the login section from the social login section. At the bottom, there are two buttons: 'Sign in with Google' (with the Google logo) and 'Sign in with Apple' (with the Apple logo).

10. Select “**Simulation**” for demo trading

Open Account

Simulation

Risk free and stress free simulated trading
13 days left of free Simulation.

Try it

11. Several windows will open on your desktop. You can close any you don't need, only the main **NinjaTrader control window** should remain open (top left).

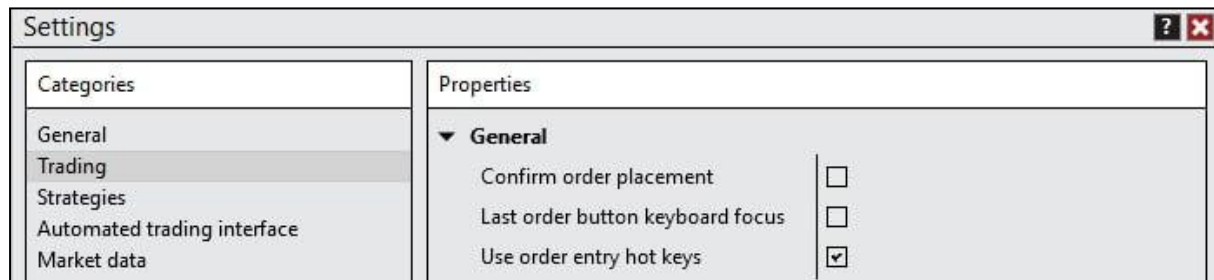

Step 2: Set Up Your Hotkeys

1. Enable Hotkeys

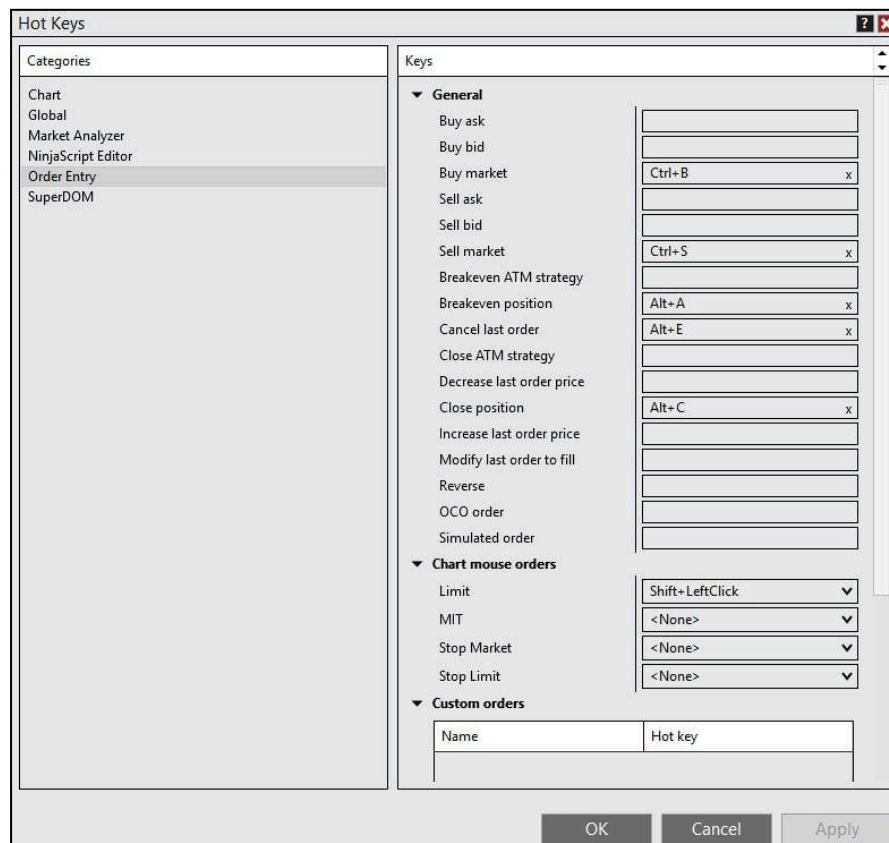

First, you need to enable hotkeys:

Go to Tools / Settings / Trading / General, check “**Use order entry hot keys**”, then click Apply.

2. Set Up Your Hotkeys

In the main control window, open **Tools / Hot Keys**.

Here, you can choose different commands for opening and closing positions. Go to the **Order Entry** tab and, for example, enter your preferred shortcut for **Buy Market**.

You also need to assign the same shortcut on the keyboard itself using the **TP Key Customization Tool** included in the same email as the files and instructions.

By default, the shortcut is set to **Ctrl + B**. You can leave it as it is and simply change the Buy key inside the TP Tool to match that shortcut.

Repeat this process for all desired commands, then click **Apply**. Your keyboard will then be ready to use.
